ReSound

rediscover hearing

dot² by ReSound®

Out of sight design

An instantly inconspicuous hearing device

dot² by ReSound is a tiny hearing device. Its sleek design hides behind your ear so nobody else will see it. Weighing almost the same as a paper clip, it's so lightweight you won't feel it. But with a seriously powerful punch, dot² by ReSound provides dramatic improvement to your hearing.

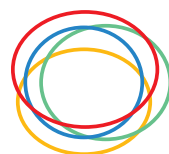

The Surround Sound Experience

Reconnect with the world around you

dot² by ReSound is powered by our unique Surround Sound Processor™. Just like a surround sound speaker system, it processes bass and treble separately, providing a rich, smoothly-blended listening experience.

You will benefit from:

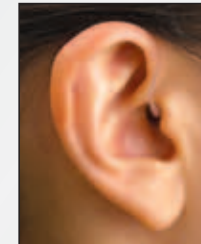

- fantastic sound quality
- clearer understanding of speech and conversation in noisy situations
- improved awareness of surroundings
- enhanced ability to locate sounds

**SURROUND
SOUND**
by ReSound™

Can you spot the dot²?

dot² by ReSound is the ultimate combination of form and function, pairing natural sound quality with near-invisible design.
